

"Graphene and 2D Materials" EUREKA Cluster

09:30 – 09:45 : **"Graphene and 2D Materials" EUREKA Cluster: Fostering European Competitiveness.** Antonio Correia (Phantoms Foundation, Spain)

09:45 – 10:00 : **Graphene & 2D Materials Cluster: Funding Projects in Spain.** Pilar de Miguel (CDTI, Spain)

10:00 – 10:15 : **The Scaling of Reproducible Graphene for Industry Use.** Iñigo Charola (Graphenea, Spain)

10:15 – 10:30 : **Technology and processes for scaled up fabrication of 2D materials and heterostructures.** Ravi Sundaraman (Oxford Instruments, UK)

10 :30 – 10 :45 : **Functionalized Processable Graphene from Electrochemical Approaches.** Martin Lohe (TUD / cfaed, Germany)

10 :45 – 11 :00 : **Improving Li battery performance with graphene and GO.** Ahmet Oguz Tezel (Graphene Batteries, Norway)

11 :00 – 11 :15 : **Graphene electrodes for capacitive deionization: an energy efficient water desalination method.** Alberto Garcia Luis (Tecnalia, Spain)
