◆ FORUM: "BIOMATERIALS AND NANOSTRUCTURES IN BIOMEDICINE"

April 13th, 2011

This forum aims to deal with topics of interest for both, Industry and Academia, allowing direct contacts between CIBER-BBN researchers and company managers, in order to find mutual interests and potential collaborations.

Main aspects of this forum are:

- Synthesis of bio- and/or nano-materials.
- Physical and chemical characterization of bio- and/or nano-materials.
- Their biomedical applications (implants, medical devices, scaffolds for regenerative medicine, etc.).

If you would like to participate, please contact Dr. Fernando Santos at fsantos@ciber-bbn.es

◆ NANOLANE

Nanolane invite participants to come and discover at their booth the SEEC technique (Surface Enhancement Ellipsometry Contrast) that allows the characterization of nanometric samples (z-axis sensitivity down to 0.3 nm) with SARFUS equipment (optical microscopy). You are welcome to freely test your sample (liquid or solid) with their equipment during the exhibition.

More details and contact: nano@eolane.com

◆ SPONSORSHIP OPPORTUNITIES

Sponsorship Opportunities (advertising, flyer insert, etc) are still available and prices start form 750€. Check the opportunities available here: [HERE](http://www.imagenenano.com/GENERAL/sponsorship.php).
